The following is a message from the Desk of Adam Davis in Perth, Western Australia.

Dear Friend,

Allow me to introduce myself, my name is Adam Davis and I am an International Speaker on Internet Marketing and my specialty is ***Traffic Generation Techniques***.

I've just returned from an Internet marketing world tour as the personal assistant and head internet marketer for Stephen Pierce – if you haven't heard of Stephen, think of him as the *Anthony Robbins of Internet Marketing*.

I have been fortunate enough to work with some of the most brilliant minds in the Internet marketing industry, and I personally have been a traffic generation consultant for people like Stephen Pierce, John Childers, Jack Canfield, Matt Bacak, Russell Brunson and more...

Managing Google AdWords accounts is my biggest skill... (pssst if you don't know what Google AdWords is keep reading, it could revolutionize your business) **and** I have managed over 148 accounts in 107 different industries online...sending over **100 million people to various websites last year!**

Needless to say...

The Information I have learnt and the secrets I have been told are absolutely priceless...

I have witnessed time and time again the techniques I have learnt in the internet marketing industry, literally make millions of dollars for clients every year, in fact I have seen one of my clients *make 1 million dollars in twenty four hours* using just one of the techniques I have been taught.

Now that I'm back in town and feeling hospitable I have spoken to Stephen about jamming everything I have learnt over the last 4 years into a series of traffic generation DVD's that will contain screen recordings of me walking you step by step through the various techniques I have learnt!

Why am I promoting this series in just Australia?

Because I am sick and *tired* of hearing about how *advanced* other countries are in their online marketing efforts compared to Australia!

Which is where you come in – You see I have an exciting new product to share with you that has the potential to increase your business leads ten-fold using just one killer strategy I have been taught and I use personally...

In fact I use this traffic strategy first, for every new website I create – because I can send traffic to my site in under 5 minutes and it also gives me so much accurate information about what I need to change on my website to make it profitable!

This course is the first of a whole series of traffic courses I will create, however I believe it to be the single most important traffic strategy you need to learn if you want to understand online marketing and see the benefits of my techniques instantly...

Your Google AdWords Ad could be pulling in new leads every single day, IF you know how to BEAT your competitors and stay on top.

Here are 4 out of 27 Main Benefits To Using Google AdWords For Your Business!

- ☑ **You Only Pay Per Click** – with Google AdWords you only pay when someone actually clicks on your advertisement and visits your website, this means that you have a chance to convert every single visitor into a sale.
- ☑ **Extremely Targeted Advertising** – You choose which search keywords you would like to advertise for, which means only people who are searching for something highly relevant to the product or service that you offer will see your ad!
- ☑ **Your Campaign Runs On Autopilot** – Once you set up your Google AdWords account using the tips and techniques I show you, you will only have to log in once a week for ten minutes to see how many people have visited your site, how many sales you made and make a few minor changes here and there if necessary.
- ☑ **Low Investment, High Return** – You tell Google your daily budget and how much you are willing to pay per click, which means there are no nasty surprises at the end of the month! The best part is you can find keywords in your industry for as low as 13 cents!

There are so many benefits to Google AdWords that I could go on forever but I think you get the point, however ***just to make sure you understand*** just how powerful this is compared to traditional advertising...

Here's 4 More Killer Benefits!

- ☑ **The Traffic is INSTANT** – which means that as soon as you press the GO button on your campaign, you will have people visiting your website within a matter of minutes.
- ☑ **The Traffic is QUALIFIED** – because people have searched on Google to find you, if they click on your Advertisement there is a high probability that they are looking for what you are offering! (unlike offline advertising which is highly untargeted advertising)
- ☑ **The Traffic is MEASURABLE** – yep that's right you can see if the traffic coming from AdWords is transforming into cash using Google AdWords minute-by-minute reporting service which tells you how many sales you have made from AdWords traffic.
- ☑ **Easy to Create and Edit Ads** – this means you don't have to call editors of magazines to get your advertisement change, with Google AdWords your advertisements can be changed with a push of a button.

Wait... I think I can *sense a little bit of excitement?* Are you ready to start creating more leads for your business that come in every single day until you say stop?

Well before you try and implement Google AdWords yourself I *urge* you to read the next page; it could literally save you thousands of dollars in the long run...

The Truth Is The Majority Of Google AdWords Advertisers FAIL Miserably...

99.9% of Google AdWords Advertisers are targeting only a fraction of the qualified leads they could be attracting from Google and paying 500% more for their clicks than they really have to.

All because they never took the time to listen to someone who has created a campaign before and turned it into a money making success! This in my opinion is one of the biggest reasons why people don't achieve their business goals in life...

Because people don't follow a systemized, proven, iron clad **recipe to success!**

They think they need to learn everything themselves and no one knows any better. (Everyone knows us Australians like the hard slog).

But remember me telling you this! You **will** lose money on AdWords if you don't follow a system for making it a success for you and understand the techniques to beating your competitors.

Heres Just A Handful Of Some Of The Costly Mistakes People Make:

- ✘ Advertising for 10 Search Keywords instead of 1000 Search Keywords.
- ✘ Choosing the wrong Language and Location options – *Deadly Mistake!*
- ✘ Selecting a daily budget which does not meet their industry standards.
- ✘ Paying WAY too much for clicks, literally costing thousands of extra dollars.
- ✘ Not maintaining their account effectively with devastating results.
- ✘ Writing un-compelling and utterly BORING advertisements – “ZZZZZZ”.

And that's just off the top of my head, what you really need is someone to take you by the hand step-by-step! - Teach you the **insider secrets** to Google Adwords.
